

MFN Shot Peening Workshop, Oosterhout

Date: October 15-17, 2019

- FAA approved courses with **19 different Topics**
- **Basic/Intermediate/Advanced Courses (L1-L3)**
- **MFN is a Partner in Education in Nadcap**
- **Hands-on training for Flap Peening**

Basic/Level 1 Course	Intermediate/Level 2 Course	Advanced/Level 3 Course
October 15, 2019	October 16, 2019	October 17, 2019
<p>Level 1 is the minimum requirement for shot peen operators and is the foundation for level 2. The level 1 course provides training in peening workshop operations & inspections. The content includes: Introduction to peening; Intensity L1; Coverage; Engineering, Planning, Documentation; Masking; Peening media L1; Shot peening in the automotive industry L1.</p> <p>FAA approval ref. no. will be on certificate of achievement</p>	<p>Level 2 is the minimum requirement for shot peen supervisors & technicians. Level 2 builds on the knowledge gained in level 1 to provide further capability in: Intensity L2; Preparing for shot peening audits; Wheel peening machines & equipment; Air peening & nozzles; Peening media L2; Flap peening; Shot peening in the automotive industry L2.</p> <p>FAA approval ref. no. will be on certificate of achievement</p>	<p>Level 3 is the recommended standard for auditors, trainers & specifying engineers. Level 3 provides greater breadth and depth of knowledge to enhance the competence gained from the previous levels. Residual stresses & their measurement; Fatigue stress corrosion; Optimization of shot peening; Shot peening in the automotive industry L3; Durability & performance test / Photo optical particle analysis; New technologies & alternatives; Conducting a Shot Peening Audit.</p> <p>FAA approval ref. no. will be on certificate of achievement</p>

Location: - Straaltechniek International, Oosterhout, further information see page 4

- Registration Fees:** - € 550 per person and course, group discount available
- Included: course documentation, break refreshments and lunches
 - Not included: transportation, lodging and other meals
 - Class size is limited. Make early reservations.
 - Certificate of completion is issued to each participants
 - Optional certificate of ACHIEVEMENT (€ 100)
 - Payments have to be made before the workshop
 - Cancellation will be charged € 50 and must be made in writing 7 days prior to the start of the workshop. - "No Shows" will be liable for the full fee.

Description about the courses at:
www.mfn.li/workshop/courses

Note: Workshops sometimes get cancelled. Check with organizer before making non-refundable flight or hotel arrangements.

Registration: (One form per person. You may copy this form.)

For questions call Marco Klijsen at +31.162.748 010 or the headquarters at +41.44.8312644

Why attend the MFN Shot Peening Workshop

MFN is organizing frequently these international 1-4 days Shot Peening Workshops and to attract a wide spread audience. Operators, supervisors, process & maintenance engineers, buyers, even trainers will be able to either learn something completely new, or at least be able to refresh their knowledge.

FAA approved Courses:

All 3 courses offered during the workshop are FAA approved. Participants who passed the optional examination receive a "Certificate of Achievement", which has the related FAA identification number on it. The FAA approval gives the courses a general credibility. However, there are a lot of aviation repair and overhaul stations, which do receive frequent FAA audits. Especially those companies will appreciate to have access to a FAA approved shot peening training.

MFN is Partner in Education in Nadcap:

Nadcap and MFN have agreed to recognise and promote the cooperation between the two organisations in areas of common interest according to their purpose, namely aerospace special process assessment. The cooperation will be known as "Partners in Education" and is intended to create synergy, making optimal use of the resources available, for the accreditation related activities offered by both organizations so as to provide an effective and efficient service to the aerospace industries in the world.

Topics of Workshop:

-introduction to peening and theory, -peening intensity, -effect of peening, -Almen saturation curve, -peening coverage, -exposure time, -peening location, -process documentation, -masking solutions, -workpiece fixtures, -shape & size inspection of peening media, -specifications, -shaded strips, -audits by 3rd parties, -durability/performance tester for shot peening media, -specifications & standards, -peening equipment components, -air & wheel peening, -machinery styles and application examples, -hole peening, -flap peening, -peen forming, -optimization of shot peening for fatigue critical applications, -residual stress, -XRD and BNA measurement of shot peening induced stresses, -laser peening, ultrasonic peening, cavitation peen, -deep rolling, -photo optical particle analysis, -shot peening in the automotive industry, -etc.

Description about the courses at: www.mfn.li/workshop/courses

Basic / L1 Course

Description about the courses at: www.mfn.li/workshop/courses

Time	Subject	Course	Official MFN Trainer
8:15-8:25	-Official Opening of Basic Course / L1	-----	Marco Wildhagen
8:25-9:10	-Introduction to Peening	Basic, FAA recognized	Marco Wildhagen
9:10-9:55	-Intensity L1		
New Topics! Completely revised!			
Morning Break (35 minutes)			
10:30-11:15	-Coverage	Basic, FAA recognized	Marco Wildhagen
11:15-12:00	-Engineering, Planning, Documentation	Basic, FAA recognized	Marco Wildhagen
13:00-13:45	-Masking	Basic, FAA recognized	Marco Wildhagen
13:45-14:30	-Peening Media L1: Applications & Quality Control	Basic, FAA recognized	Marco Wildhagen
Afternoon Break (30 minutes)			
15:00-15:15	-L1: Shot Peening in the Automotive Industry	Basic, FAA recognized	Marco Wildhagen
15:15-15:45	-Repetition Basic Shot Peening Course	Basic, FAA recognized	Marco Wildhagen
15:45-16:30	-Test for FAA approved Certificate	Basic, FAA recognized	Marco Wildhagen

Intermediate / L2 Course

Description about the courses at: www.mfn.li/workshop/courses

Time	Subject	Course	Official MFN Trainer
8:15-8:25	-Official Opening of Intermediate Course / L2	-----	Marco Klijsen
8:25-9:10	-Intensity L2	Intermediate, FAA recognized	Marco Klijsen
9:10-9:55	-Preparing for Shot Peening Audits		
New Topics! Completely revised!			
Morning Break (35 minutes)			
10:30-11:15	-Wheel Peening Machines & Equipment	Intermediate, FAA recognized	Marco Klijsen
11:15-12:00	-Air Peening & Nozzles	Intermediate, FAA recognized	Marco Klijsen
13:00-13:45	-Peening Media L2: Specification & Quality Control	Intermediate, FAA recognized	Marco Klijsen
13:45-14:30	-Flap Peening	Intermediate, FAA recognized	Marco Klijsen
Afternoon Break (30 minutes)			
15:00-15:15	-L2: Shot Peening in the Automotive Industry	Intermediate, FAA recognized	Marco Klijsen
15:15-15:45	-Repetition for Intermediate Shot Peening Course	Intermediate, FAA recognized	Marco Klijsen
15:45-16:30	-Test for FAA approved Certificate	Intermediate, FAA recognized	Marco Klijsen

Advanced / L3 Course

Description about the courses at: www.mfn.li/workshop/courses

Time	Subject	Course	Official MFN Trainer
8:15-8:25	-Official Opening of Advanced Course / L3	-----	Andrzej Wojtas (Ph.D.)
8:25-9:10	-Residual Stresses & their Measurement	Advanced, FAA recognized	Andrzej Wojtas (Ph.D.)
9:10-9:55	-Fatigue Stress Corrosion		
New Topics! Completely revised!			
Morning Break (35 minutes)			
10:30-11:15	-Optimization of Shot Peening	Advanced, FAA recognized	Andrzej Wojtas (Ph.D.)
11:15-12:00	-L3: Shot Peening in the Automotive Industry	Advanced, FAA recognized	Andrzej Wojtas (Ph.D.)
13:00-13:45	-Durability & Performance Test / Photo Optical Particle Analysis	Advanced, FAA recognized	Andrzej Wojtas (Ph.D.)
13:45-14:30	-New Technologies and Alternatives: Laser Peening, Ultrasonic Peening, Cavitation Peening, Deep Rolling	Advanced, FAA recognized	Andrzej Wojtas (Ph.D.)
Afternoon Break (30 minutes)			
15:00-15:15	-Conducting a Shot Peening Audit	Advanced, FAA recognized	Andrzej Wojtas (Ph.D.)
15:15-15:45	-Repetition Advanced Shot Peening Course	Advanced, FAA recognized	Andrzej Wojtas (Ph.D.)
15:45-16:30	-Test for FAA approved Certificate	Advanced, FAA recognized	Andrzej Wojtas (Ph.D.)
